## A

### Abstracts

- asymmetry of disciform scarring in bilateral disease when one eye is treated with radiotherapy, 172
- beta-galactosidase transgene expression in transplanted rabbit RPE cells in vivo, 471
- comparison of tight junction permeability for albumin in iris pigment epithelium and RPE, 472
- cyclosporine treatment promotes survival of human fetal neural retina transplanted to the subretinal space of the light-damaged Fisher 344 rat, 469
- effects of RPE cell-secreted factors on neonatal rat retinal explant progenitor cells, 472
- low-dose radiation therapy for choroidal neovascularization in AMD, 170
- manufacture and characterization of poly(alpha-hydroxy ester) thin films as temporary substrates for RPE cells, 471
- phase I/II study of proton beam irradiation for the treatment of subfoveal choroidal neovascularization in AMD: treatment techniques and preliminary results, 170
- photoreceptor repair in response to RPE transplants in RCS rats: outer segment regeneration, 470
- radiation therapy for age-related subfoveal choroidal neovascular membranes, 171
- radiation therapy for subretinal neovascularization, 171
- radiotherapy for age-related choroidal neovascularization, 170-172
- reattachment of cultured human RPE to extracellular matrix and human Bruch's membrane, 471
- retinal and retinal pigment epithelial transplantation, 468-473
- retinal engineering: engrafted neural cell lines locate in appropriate layers, 472
- retroviral gene transfer into retinal pigment epithelial cells followed by transplantation into rat retina, 470
- tolerance of human fetal RPE xenografts in monkey retina, 469
- transplantation of fetal RPE in age-related macular degeneration with subfoveal neovascularization, 468
- transplantation of human fetal RPE rescues photoreceptor cells in the RCS rat retina, 469
- Acyclovir diphosphate dimyristoylglycerol lipid prodrug, in herpes simplex virus-1 retinitis (rabbit), 57
- Adhesions, peripheral vitreoretinal, 131
- Adies pupil, ocular siderosis, 105
- Age/aging
  - peripheral vitreoretinal adhesions and, 131
  - postconceptional age, pars plana development, 135
- AIDS (acquired immune deficiency syndrome). *See* HIV/AIDS
- Alcaligenes xylosoxidans* endophthalmitis, chronic postoperative, 260
- Amikacin, intravitreal efficacy, in posttraumatic pseudomonal endophthalmitis (pig), 139
- Angioid streaks, choroidal neovascularization, laser photocoagulation, 12
- Animal studies
  - complement-induced retinal arteriolar occlusions (cat), 239
  - effect of retinal cryoapplication on vitreous (rabbit), 338
  - experimental proliferative vitreoretinopathy, periocular corticosteroid therapy (rabbit), 44
  - experimental vitreous and aqueous replacement with perfluorophenanthrene (rabbit), 146
  - intraocular injection of recombinant hirudin in prevention of postoperative fibrin formation (rabbit), 315
  - intravenous gentamicin and ceftazidime in penetrating ocular trauma (pig), 28
  - lipid prodrug of acyclovir in herpes simplex virus-1 retinitis (rabbit), 57
  - perfluoro-octane for hemostasis during vitreoretinal surgery (rabbit), 530
  - pneumolysin as virulence factor in *Streptococcus pneumoniae* endophthalmitis (rat), 521
  - posttraumatic pseudomonal endophthalmitis (pig), intravitreal antibiotic therapy, 139
- Aniridia, silicone oil tamponade in, artificial iris diaphragm for, 330
- Anterior chamber, erosion and migration of Watzke sleeve, 71
- Antibiotics
  - intravenous gentamicin and ceftazidime in penetrating ocular trauma (pig), 28
  - intravitreal ceftazidime, amikacin, and imipenem therapy, posttraumatic pseudomonal endophthalmitis (pig), 139
  - letter, 464

- ofloxacin penetration of eye after intravenous and topical administration, 535
- Antiphospholipid syndrome, primary, cilioretinal artery occlusion in, 555
- Antithrombin agents, recombinant hirudin in prevention of postoperative fibrin formation (rabbit), 315
- Apolipoprotein E, subretinal fluid, in retinal detachment, 38
- Aqueous fluid, ofloxacin penetration after intravenous and topical administration, 535
- Aqueous substitute, evaluation of perfluorophenanthrene (rabbit), 146
- Arcuate pigment epithelial dystrophy, bulls' eye maculopathy in, 551
- Arrestin gene, 1147delA mutation in Oguchi disease, phenotypic characteristics, 17
- Artificial iris diaphragm, in silicone oil tamponade for ocular trauma in eyes with partial/complete aniridia, 330
- Aspergillus niger* endophthalmitis, exogenous, in patient with filtering bleb, 461
- Autofluorescence, retinal autofluorescence in AMD, scanning laser ophthalmoscopy, 385
- Autorefractometry, head position and refractive changes in silicone oil-filled eyes, 397
- Autosomal dominant vitreoretinopathy, 294
- Award of Merit in Retina Research, Gabriel J. Coscas, 1
- Axial length of eye
  - branch retinal vein occlusion and, 191, 196
  - pars plana development, 135
  - peripheral vitreoretinal adhesions and, 131

## B

- Bartonella henselae*, acute multifocal retinitis, in HIV/AIDS, 457
- Book Review, Indocyanine Green Angiography, L. Yannuzzi, R. W. Flower, J. S. Slakter (eds.), 474
- Bulls' eye maculopathy
  - in arcuate pigment epithelial dystrophy, 551
  - in central serous chorioretinopathy, 205
- Bungee cord injury, posttraumatic *Scopulariopsis brevicaulis* endophthalmitis, 256

## C

- Cannulated vitrectomy system, sclerotomy-related retinal tears and, 430
- Cataract surgery, triple procedure: phacoemulsification, IOL implantation, and scleral buckling, 502
- Ceftazidime
  - intravenous, in penetrating ocular trauma (pig), 28
  - intravitreal efficacy, in posttraumatic pseudomonal endophthalmitis (pig), 139
- Cellophane maculopathy, 300
- Central nervous system, lymphoma, ocular involvement, 118
- Central serous chorioretinopathy
  - idiopathic serous pigment epithelial detachment, 286
  - ring RPE window defect of macula in, 205

- Chorioretinitis
  - primary CNS lymphoma with ocular involvement, 118
  - tuberculous, in HIV/AIDS, 437
- Chorioretinitis sclopetaria, 510
- Chorioretinopathy
  - central serous
    - idiopathic serous pigment epithelial detachment, 286
    - ring RPE window defect of macula in, 205
  - circumpapillary, in multiple evanescent white dot syndrome, 75
- Choroid
  - fluorescein extravasation during fluorescein angiography, 540
  - in idiopathic serous pigment epithelial detachment, 286
  - metastasis, RPE tear and, 258
  - rupture, multiple posttraumatic choroidal ruptures obscured by hemorrhage, indocyanine green angiographic imaging, 352
- Choroidal dystrophy, gyrate atrophy-like phenotype with normal plasma ornithine, 403
- Ciliary artery occlusion, posterior, after central retinal artery occlusion, in diabetes, 67
- Ciliary detachment, after scleral buckling for rhegmatogenous retinal detachment, 7
- Ciliochoroidal effusion, bilateral angle-closure glaucoma in HIV/AIDS and, 455
- Cilioretinal artery occlusion, in primary antiphospholipid syndrome, 555
- Circumpapillary chorioretinopathy, in multiple evanescent white dot syndrome, 75
- Complement system, complement-induced retinal arteriolar occlusions (cat), 239
- Computed tomography (CT scan), ocular siderosis, 105
- Congenital anomalies, prepapillary vascular loop, recurrent vitreous hemorrhage and, 166
- Congenital nystagmus, in autosomal dominant vitreoretinopathy, 294
- Contraction, opposing contractile forces, postvitrectomy posterior retinal holes, 99
- Corticosteroid(s)
  - frosted branch angiitis in Crohn's disease, 451
  - periocular injections, in retinal detachment resulting from proliferative vitreoretinopathy (rabbit), 44
- Coscas, Gabriel J., Award of Merit in Retina Research, 1
- Crohn's disease, frosted branch angiitis, 451
- Cryocoagulation, retinal, vitreous effects (rabbit), 338
- Cutis marmorata telangiectatica congenita, bilateral exudative vitreoretinopathy in, 306
- Cystoid macular edema, in retinitis pigmentosa, dorzolamide hydrochloride vs. acetazolamide, 222
- Cytomegalovirus retinitis
  - ganciclovir implant insertion (*letter*), 463
  - letter*, 167
- Cytotoxin, pneumolysin, virulence factor in *Streptococcus pneumoniae* endophthalmitis (rat), 521

## D

- Dark adaptation, Oguchi disease, 17
- Deafness, macular pattern dystrophy in patients with diabetes and deafness, 216
- Diabetes mellitus
- branch retinal vein occlusion and, 191
  - macular pattern dystrophy in patients with diabetes and deafness, 216
  - sequential occlusion of central retinal artery and posterior ciliary artery in, 67
- Diabetic retinopathy
- intraretinal microvascular abnormalities, clinicopathologic correlation, 321
  - microaneurysms, early vs. late staining on fluorescein angiography, 211
  - proliferative, subretinal hemorrhages in, 87
- Diagnostic and therapeutic challenges, 344, 547
- asymmetric presentation of drusen, 65
  - intraocular worm, 440
  - posttraumatic visual loss, 154
  - retinal vasooclusive disease in alcoholic pancreatitis, 444
- Vogt-Koyanagi-Harada syndrome, 247
- Diode laser, peripheral transscleral retinal diode laser photocoagulation for rubeosis iridis, 421
- Dorzolamide hydrochloride, for cystoid macular edema in retinitis pigmentosa, 222
- Drug delivery, lipid prodrug of acyclovir in herpes simplex virus-1 retinitis (rabbit), 57
- Drusen, soft, laser photocoagulation, 378

## E

- Editorial, frosted branch angiitis: clinical syndrome or clinical sign (?), 370
- Electrooculography, gyrate atrophy-like phenotype with normal plasma ornithine, 403
- Electroretinography
- gyrate atrophy-like phenotype with normal plasma ornithine, 403
  - ocular siderosis, 105
  - in Oguchi disease, 17
- Endophthalmitis
- Alcaligenes xylosoxidans*, 260
  - exogenous *Aspergillus niger* endophthalmitis in patient with filtering bleb, 461
  - posttraumatic, intravenous gentamicin and ceftazidime in penetrating ocular trauma (pig), 28
  - pseudomonal, intravitreal ceftazidime, amikacin, and imipenem therapy (pig), 139
  - letter, 464
  - Scopulariopsis brevicaulis*, 256
  - in silicone oil-filled eye, 507
